SOURCE Kwantung Jih-pao (Kwantung Daily), No 471, 1948. (Information requested.)PRODUCTION OF SINO-SOVIET FISHERIES CORPORATION

The various subsidiaries of the Sino-Soviet Kwantung Fisheries Corporation reported that through the assistance of the Soviet Army and the wholehearted effort of the employees, they have been able to complete or are now completing their production goals for 1948. Information on individual firms follows:

By 13 November 1948, the Hei-chu-tzu Sino-Soviet Fishing Company fulfilled 3,750 tons of its 4,000-ton goal for 1948. It now operates eight large fishing boats, and according to latest reports, it expects to surpass its production goal by several hundred tons by the end of December.

The Kemp Sack Company's January production of 26,000 pieces was progressively increased during the succeeding months. Assurance was given by the company's general manager that it would be able to meet its goal by the end of the year.

The five salt fields of the Salt Industry Company have all fulfilled their 1948 requirements, and are now engaged in repairing their salt pans in preparation for next year's operations.

Despite production stoppage caused by difficulties with its furnace, the Glassware Factory was able to surpass its first 6-months' goal of 107 tons by 24.8 percent. During July, August, and September 1948, it began the manufacture of chemical apparatus, but at present this output is very limited.
